

Intuit QuickBase

Business Agility and Team Productivity for your Enterprise

We're here to help service and support your team, even when your organization has hundreds of teams.

More than half the Fortune 100 use QuickBase to make their teams more effective.

Scalable and manageable.

You can match evolving business needs with economy and efficiency, while users create their own business solutions. IT security meets business agility and management visibility.

Resources to help you succeed.

Unlimited support, service and a powerful partner ecosystem help teams streamline processes and securely share data among thousands of users.

For more information on QuickBase and how to help your business boost productivity, please e-mail us at enterprise@QuickBase.com or find us on the Web at quickbase.intuit.com

Intuit QuickBase

Business Agility and Team Productivity for your Enterprise

Get the help you need when you need it—for one team or hundreds.

Unlimited Support

Experience

Our support teams have helped thousands of customers succeed—we are ready to apply what we've learned in 10 years of Enterprise-level work at some of the country's leading companies.

All QuickBase customers receive unlimited customer support, and our Enterprise plan customers also receive premium SLAs and assistance with enterprise installation and administration.

Smart Services

Technical Expertise

We have a team of technical experts that are available for custom engagements when you want concentrated effort in a particular area. Build a program that's focused on:

- Application design and adoption
- Account and security management
- Infrastructure and ecosystem planning

Focused Partners

Help from our Network

Our network of partners is ready when you need a little or a lot of dedicated help. They can translate your process into a data-driven application, integrate QuickBase with your existing infrastructure, perform custom application development, or extend QuickBase functionality to match your needs.

Over half of the Fortune 100 companies are currently using QuickBase to make their teams more effective, and increase the agility of their enterprises.

“QuickBase team has always been great in providing great customer service.

This is the 4th company I have set up this database for and have always had great and prompt help.”

Gulum Ozbey
Marketing Communications Manager
